1	PSX-SW2-S01	ProMass Software, STD ProMass (version 1.0) for Sciex automated deconvolution software.	$6,500.00	$6,500.00	$6,500.00

ProMass allows for automated charge deconvolution of biomolecule mass spectra. The software includes the standard ProMass charge deconvolution algorithm (ZNova) for operation on the Sciex data system. ProMass allows for manual deconvolution via a simple process using single mass spectra, or automated deconvolution of entire LCMS data sets via the Sciex ProMassProcessor, available from Sciex. The software includes the capability to automatically match impurities or degradants of biomolecules involving truncation of an input biomolecule sequence.

NOTE:
*Software license is for operation on a single computer. Additional licenses must be purchased for operation on multiple computers. The license is not valid for use on a networked server.
*ProMass for Sciex requires Sciex ProMassProcessor software to be installed, available separately from Sciex.
*ProMass for Sciex Software will be made available via electronic download. A USB key device is used to license the software and will be shipped to the end user.

TERMS:
*Payment in full is due prior to product shipment.
*FOB Shipping Point. Shipping charges are prepaid and added.
*The total amount does not include sales tax or VAT. Please send a tax-exempt certificate if this is a tax-exempt sale.
