ProMass STD UPG to HR for Xcalibur DOMESTIC

Quantity	Part Number:	Product	List Price	Unit Price	Ext. Price
1	PMX-HR4-S01-UPG	ProMass HR for Xcalibur 4.0 Upgrade Upgrade from ProMass STD 3.0 or later to ProMass HR 4.0 for Xcalibur automated deconvolution software.	\$8,500.00	\$8,500.00	\$8,500.00

ProMass HR allows for automated charge deconvolution of isotopically unresolved mass spectra of biomolecules and deisotoping of isotopically resolved mass spectra. The software includes the standard ProMass charge deconvolution algorithm and the full suite of Positive Probability Ltd (PPL) MS data processing tools for peak shape, charge, and isotope pattern deconvolution. ProMass allows for manual deconvolution via a simple process using single mass spectra, or automated deconvolution of entire LCMS data sets via the Xcalibur sample list. The software includes the capability to automatically match impurities or degradants of biomolecules involving truncation of an input biomolecule sequence.

NOTE:

*Upgrade pricing is only available to existing users of ProMass Deconvolution 3.0 or later. User must have an existing ProMass USB license key to obtain upgrade pricing. User must provide a valid ProMass USB license key id at the time of purchase.

*Software license is for operation on a single computer. Additional licenses must be purchased for operation on multiple computers. The license is not valid for use on a networked server.

*ProMass requires Thermo Xcalibur software to be installed. Xcalibur is available from Thermo Scientific.

*Software and license upgrade will be made available via electronic download. Nothing will be shipped to the end user.

TERMS:

*Payment is due Net 30 days from invoice date.

*The total amount does not include sales tax or VAT. Please send a tax-exempt certificate if this is a tax-exempt sale.
