ProMass HR Twin Pak for Xcalibur INTERNATIONAL

Quantity	Part Number:	Product	List Price	Unit Price	Ext. Price
1	PMX-HR4-S02	ProMass HR for Xcalibur 4.0 Twin Pak	\$25,000.00	\$22,500.00	\$22,500.00

ProMass HR (version 4.0) for Xcalibur automated deconvolution software twin pak. Includes two licenses with a discount of 10% over single license pricing - perfect for those users who want to process data at their instrument and on a standalone workstation.

ProMass HR allows for automated charge deconvolution of isotopically unresolved mass spectra of biomolecules and deisotoping of isotopically resolved mass spectra. Package includes standard ProMass charge deconvolution algorithm and the full suite of Positive Probability Ltd (PPL) MS data processing tools for peak shape, charge, and isotope pattern deconvolution. ProMass allows for manual deconvolution via a simple process using single mass spectra, or automated deconvolution of entire LCMS data sets via the Xcalibur sample list. The software includes the capability to automatically match impurities or degradants of biomolecules involving truncation of an input biomolecule sequence.

NOTE:

*Includes two software licenses for operation on two computers. Licenses do not support operation on a networked server.

*ProMass HR requires Thermo Xcalibur (available from Thermo Scientific) software to be installed on each workstation where it is desired to run ProMass HR.

*Software will be made available via electronic download. A USB key device is used to license the software. Two USB license keys will be shipped to the end user.

TERMS:

*Payment is due prior to product shipment.

*Payment Terms: (International \$22,500 + \$150 due upon receipt of invoice)

*FOB Shipping Point.

*The total amount does not include sales tax or VAT. Please send a tax-exempt certificate if this is a tax-exempt sale. Shipping charges are pre-paid and added to the invoice.
